OFFICE FOR SYLVESTER

Washington Official Is Elected Secre tary-Treasurer of the Identification Bureau.

pecial to The Washington Herald. Grand Rapide, Mich., June 15.—Detective William J. Burns, head of the Burns National Detective Agency, is "in bad" with the International Association of Chiefs of Police, which opened a five days' convention here to- Six Girls and Six Boys Are Gradday. At the opening business session tomogrow resolutions will be introduced by Chief Michael Regan, vice president, of Buffalo, and F. J. Cassada, of Elmira, N. Y., asking that the detective be ousted from the organization.

The woman who is spending 28 and 20 cents a pound for porterhouse steak is wantonly throwing away her husband's money, when better and cheaper cuts can be bought for 12 and 15 cents a pound. The secret lies in knowing how to treat these cheaper cuts.

A most nourishing pot of soup can Lucille Dienelt, Herbert Byrne, John Pagedon, Con Mullion Spring Murrhy.

these cheaper cuts.

A most nourishing pot of soup can be made from the first cut off the neck be made from the first cut off the neck and later the meat can be used for hash, or ground in a food-chopper and mixed with mayonnaise for sandwiches. It can also be mixed with cold mashed potatoes or cold left-over cream of wheat, formed into balls, dipped into ess and cracker crumbs and fried brown in hot fat.

Any part of a good beef can be potroasted, but the lower round is most desirable, as it is cheap and contains no bone. For this cut put a tablespoonful of drippings in your pot and allow it to become smoking hot. Drop the meat in and sear on all sides. This keeps the juice in. Salt well and let fry a few minutes. Add a little water and cover tightly till it boils dry and fries. Turn and add more water. Continue till the meat is done, when it should

BOME HEAR CONSUL'S OFFICE

Italian consul in New York. Dete had been made to assassinate the but that the fuse had been extin by the dampness of the room and the inexpertness with which it had been

made.

The Italian consul has been active in having Italian criminals deported. A few weeks ago an attempt was made to burn the building in which his office is

ALEXANDRIA HIGH GIVES

of Elmira, M. Y., asking that the detective be ousted from the organization.

Members of the association have not looked with favor on the activities of Burns for some time, but the part he played in the Leo Frank case recently, when he attempted to clear the Atlanta manufacturer of a charge of murder on which he had been convicted and sentenced to death, has aroused polite-chiefs all over the United States and the 300 delegates in attendance at the convention are united in the move to out him.

"We have been watching Burns' work for some time," said Chief Cassada to day, "and we have decided that we do not care to have him considered one of us any longer. There is not a police off us any longer there is not a police off the case is taken into court, and from my point of view Burns has been violating the confidence of his clients to gain publicity for himself."

It also was intimated that when the matter comes before the convention some of the inner secrets of the McNamars case will be given publicity for the first time. Ever since the arrest of the dynamiters, stories have been current that Burns took more credit than was dubim.

The business meeting of the National Bureau of Criminal Identification was held today. John T. Jamssen, of Milwaukee, was elected president; Michael Regan, of Buffalo, vice president, and Maj. Sylvester, of Washington, secretary treasurer.

Baked berry dumpling makes a very tasty dessert. Hull and wash a quart of strawberries, put in a deep dish, cover with granulated sugar and let them stand for several hours.

Roll out pastry thicker than for a pic, and cut into large squares.

Fill the squares with strawberries, removed from the dish with a silver fork.

TO THE PUBLIC:

THE State of New York, through its Department of Insurance, has completed the examination of the Metropolitan Life Insurance Company which it is required by law to make every three years. The Chief Examiner, in concluding the report, said:

"The treatment by this Company of its policy-holders in the prompt payment of their claims, in the voluntary payment of milions of dollars in bonuses, and in its social welfare work—are features of the Company's business which deserve commendation."

The Superintendent of Insurance, the Hon. William Temple Emmet, in approving the report, wrote an extended review from which we make extracts:

THE COMPANY'S GROWTH AND MANAGEMENT.

."The administrative officers of the Company * * have so increased the assets of the Company as to make these equal the resources of many states and even nations. They have at the same time steadily cheapened the cost of insurance to policy-holders, both by direct means and by the distribution of bonuses."

[The report shows that the Company has given back \$35,567,293 in bonuses to Industrial policy-holders in nineteen years.]

"They have extended the Company's business to such an extent as to bring it into contact now with approximately one-eighth of the population of the United States."

[The number of policies outstanding December 31, 1913, was 13,957,748.]

"That this notable growth has involved no sacrifice of efficiency in the handling of administrative details, but, on the contrary, has been the direct result of constantly increasing efficiency, is shown by the comparatively small losses sustained by the Company in proportion to the large investments made."

ITS POLICY-HOLDERS SATISFIED.

"The fact that the percentage of lapses due to the abandonment of their insurance by policy-holders is constantly decreasing, speaks eloquently to the same effect."
[The lapse ratio of Industrial policies has decreased 31.7 per cent. in eight years.]

"This last mentioned development is perhaps the most convincing evidence which could be offered that the Company's policy-holders are, broadly speaking, very well satisfied indeed with what they get in return for the premiums they pay. A very remarkable showing altogether."

ITS SOCIAL SERVICE.

"This Company waited for no changes in existing law before striking out as a pioneer

among insurance companies along the pathway of social service on a huge scale.

"For years it has maintained for its policy-holders a nursing service upon a great scale; this has latterly become a veritable marvel of efficiency and practical helpfulness." [Metropolitan nurses made 1,127,022 visits to sick policy-holders in 1913, for which the Company paid the bills.]

"Leaving out of consideration the mere numbers of those who have been directly benefited by these activities, I think that the example which the Metropolitan has set to other great business organizations by its early recognition of the new responsibilities attaching to all business enterprises which have attained a certain size, is one of the most beneficial of recent occurrences in the field of American business. For years it has through its publications upon the question of health conservation been serving multitudes of people as a sort of University of beneficial instruction upon this most important subject."

ABREAST OF MODERN THOUGHT.

"This great institution, having so very recently been under our critical scrutiny and presenting so many admirable illustrations of what an efficient and enlightened modern business organization on a large scale can do in the way of keeping abreast of modern thought, seems to be in a position where I may properly use it as an illustration * * * that private initiative and enterprise are at their best still capable of doing the finest possible work in fields from which, latterly, all the talk has been that these agencies should be compelled to retire."
